

EMERGENCY (BWH & BMLOC)

The Baystate Wing Hospital Emergency Department provides 24/7 emergency care, the expanded space offers 20 private patient rooms, including trauma and behavioral health crisis services. Patients have access to the most sophisticated medical technology, including CT scan and a variety of x-ray services, located within the Emergency Department.

Baystate Mary Lane Emergency Services is a satellite emergency facility of Baystate Wing Hospital which provides 24/7 emergency care in Ware.

- Over 34,000 Emergency Department visits combined annually

IMAGING CENTER (BWH & BMLOC)

We provide a full spectrum of inpatient and outpatient radiology services for adults and children across a number of subspecialties. Our caring, knowledgeable radiologists and technologists use the latest technology and state-of-the-art equipment to provide you with the highest level of care and medical expertise including cancer and other screenings, nuclear imaging, emergency services, trauma imaging, cardiac imaging, CT, MRI and 3D Mammography.

PRIMARY AND SPECIALTY CARE (BWH & BMLOC)

Physicians at Baystate Mary Lane Outpatient Center & Baystate Wing Hospital offer a full range of primary care services to adults, children and adolescents from annual wellness visits and preventive care to more acute care for illness. In addition to our primary care physicians, we provide a full spectrum of subspecialties. When you require additional health services, our team at The Center for Primary and Specialty Care can help coordinate your care among the other departments within the hospital to ensure you receive the highest level of care.
